

SEVENTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, JAN. 25, 1906.

No. 4

EDITORS MEET.

Seventy-Five Delegates Present
at Mid-Winter Session of
Press Association.

ENTERTAINED BY
COMMERCIAL CLUB.

Frankfort, Ky., Jan. 22.—Members of the Legislature are today walking the chalk line and repeating, lest they forget: "The editors will get you if you don't watch out." And they will, too, for there are enough of them, and they seem to have taken the town. In fact, the "Fourth Estate" is "it" today, the General Assembly having taken a back seat for the time being. The men who wield the pen or pound the typewriter, as the case may be, are the whole show, and their meeting, which was called to order about noon, has proved the center of attraction. There are about seventy-five delegates on hand, not counting their "sisters" and their consins and their aunts, and they have settled down to business with a vengeance, the program which was prepared some time ago being carried out in detail.

The feature of the entire meeting has been reserved until tonight, when Mr. A. Y. Ford and Mr. Vinscher will make addresses which will be heard not only by the members of the association, but by many of the legislators and by the people of Frankfort.

After the business of the day is concluded the delegates will be given a trolley ride to the new Capitol site, while the Commercial Club has arranged to give a buffet luncheon in honor of the distinguished guests.

A few of the members of the association arrived last night, but the greater part did not get in until this morning, when things began to take on a busy air and the hotel corridors resembled the busy scenes of the early part of this month.

It was some time after noon before the association got down to real business owing to the fact that the delegates were engaged in shaking hands with members of the Legislature and with each other. Owing to illness, Mr. Lew B. Brown, who was to speak on "Needed Legislation on Advertising," could not be present. Among those who spoke were John D. Babage, of Cloverport, whose subject was "Foreign Printed Supplements;" W. P. Walton, of Frankfort, who made an address, "A Moving Pen Gathers Much Ink;" James H. Eads, of Harlan, who discussed "Newspaper Development in the Mountains;" and Mr. A. D. Miller, who spoke on "The Value of District Associations."

In addition to the regular program a number of informal addresses were made.

The Kentucky Legislature.

The members of the Kentucky legislature are filing bills by the hundreds. There are probably not a half dozen representatives and senators in the Kentucky General Assembly who have not now at least a dozen proffered measures each pending. When these bills are submitted to their respective committees, unless 90 percent are rejected and then half of the remainder killed in the House, we will have enough new measures to reverse all the former laws. The bills that are now drawing the attention of the public are for additional capital appropriations and several anti-cigarette bills and the "anti lobby" bill. Other measures, of less importance, probably, are too numerous to mention.

SCHOOL NOTES.

WRITTEN BY A PUPIL.

Our school had a very interesting exercise Friday morning. After the usual songs and prayer each pupil responded to the roll call with a "memory gem."

Little Miss Artie Whitfield entered school Monday morning.

The pupils are doing some hard studying, preparing for the bi-monthly examination, which will take place the last of this week.

There were two new scholars added to the eight grade this week, Miss Rebecca Hobgood, of Nebo, and Kemp Stanley, of the country.

The department is much improved since the Honor Roll went into effect.

Boys and girls, did you ever stop to think how pleasant you might make it for new pupils just entering your school? Is it not just as easy to be kind and polite as it is to ridicule every little mistake made by them?

GONE TO WASHINGTON.

Officers of State Guard Will Help Procure Appropriations for State Militia.

Col. Jonett Henry, of the 3rd Reg. K. S. G., Hopkinsville, left Sunday for Washington, D. C., to attend a meeting of the National Guard Association, which convenes in that city this week.

He was joined at Louisville by Col. Biscoe Hindman, of the 1st Reg., who resides there, and Roger Williams, of the 2nd Reg., Lexington. These three officers will be the only delegates of the Kentucky Infantry present at the meeting.

The principal object of the meeting is to urge upon the Congressional Committee on Military Affairs the necessity for an increase of \$1,000,000 in the annual appropriation made by Congress for the maintenance of the National Guard, of which the Kentucky State Guard is a part. Senator Dick, of Ohio, is President of the Association and is also Chairman of the Committee having the matter in charge, and the Kentucky delegation, with other military men from the various states, will appear before the committee to urge the appropriation.

Sights-Posts.

The marriage of Mr. Wm. Sibbitt and Miss Phoebe Potts was solemnized Sunday Jan. 21 at 10 o'clock a. m. at the residence of Elder W. H. Moore, who performed the ceremony. Only a few friends were present. Immediately after the ceremony, accompanied by Mrs. W. H. Kline and Miss Gertrude Miffin, they drove to Earlinton, where they were entertained at dinner by Mrs. H. W. Rogers. The bride's father, Mr. Potts, of Dawson, met them here to extend the paternal blessing. Miss Potts was a resident of Dawson and for the past four years has been a very popular teacher in this county. Mr. Sibbitt was raised at Nebo, but for several years has been connected with the L. & N. The Bee joins their many friends in best wishes for a long and prosperous life. They will make this place their future home.

A New Name for the "Interurban."

The latest name for the interurban, between Madisonville and Nortonville, is the "Interruption Train." It has been called the "Merry-go-round," the "Boomerang," "the Molly," and the "Wiggletail," but "Interruption," according to Yardmaster W. S. Bramwell, is the best name of all.

KENTUCKY DIDN'T GET HER SHARE.

Only 620 Rural Free Delivery Routes in Operation at End of Fiscal Year in State.

Washington, Jan. 22.—Fourth Assistant Postmaster General DeGraw has given out some interesting data concerning the growth and extent of the rural freedelivery service. It is shown among other things that Kentucky has not a fair share of routes, and that out of 32,121, which were in operation at the end of the fiscal year only 564 were in that State. This number has increased to 620, but the quota is still far below what it should be, Indiana, for example, has 2,965 routes, Ohio 2,655 and Iowa 2,215.

From the reports of rural carriers, which have been compiled in the division of rural delivery, it is shown that more than one billion pieces of mail were handled by the carriers during the fiscal year ended June 30, 1905, or, to be more exact, 1,387,097,711. The total amount paid the 32,055 carriers in the service was \$20,293,500.91. Of this amount there was expended in the State of Nevada, with one carrier in the service, \$720, and in the State of Illinois \$1,676,004.70.

The total value of cancellation on mail originating on rural routes during the year was \$3,421,350.01, and deducting this amount from the amount paid carriers, the approximate cost of carriers for that year was \$16,871,783.90. The average cancellation per route per month was \$10.84, 30 cents less than the average cancellations per route per month for the previous fiscal year.

Eastern Star Lodge to Be Organized.

A meeting was held at the Masonic Hall Monday night for the purpose of organizing an Eastern Star Lodge at this place. The three prime officers elected were:

Mrs. Henry Browning, Worthy Matron.

Mrs. Chas. McGary, Associate Matron.

Mr. Henry Bourland, Worthy Patron.

Miss Celeste Moore, Secretary. A petition will be sent to the Grand Chapter of the State in Louisville asking for a dispensation to establish the Lodge, which will no doubt be granted.

This is a beautiful order and conducive of much good in the community, and Earlinton will doubtless soon have a flourishing Eastern Star Lodge. Those eligible to membership are Master Masons in good standing, their wives, daughters and sisters.

Fined for His Carelessness.

Owensboro, Ky., Jan.—Because he said he attended a funeral and on his return forgot to take his revolver from the pocket, William Green in the Police Court today, charged with carrying a concealed weapon, was fined and given a jail sentence for his carelessness.

Eclipses in 1906.

There will be three eclipses of the sun this year, neither of them visible in the United States. An eclipse of the moon will be visible early on the morning of Feb. 9 from Boston to Chicago, and just before midnight, the 8th, from St. Louis to San Francisco.

"Fighting Joe" Wheeler Ill.

Brig. Gen. Joseph Wheeler, of the United States Army, retired, is ill at the home of his sister in Brooklyn. He is not thought to be in danger.

FOUND DEAD.

Mrs. Mary Quinlin Dies Suddenly of Heart Disease Friday Morning.

Mrs. Mary Quinlin, aged 80 years, and one of the oldest residents of the city, was found dead in bed at the home of her son, Dan Donahue, at an early hour Friday morning. Mrs. Quinlin had been in declining health for some time, but her condition was thought to be from infirmities of old age.

Death resulted from heart failure somewhere between the hours of 3 and 5 o'clock. Mrs. Dan Donahue, her daughter-in-law, was in her room at 8 o'clock and inquired if she could do anything for her. In reply she said she was resting easy. When the room was entered at 5 o'clock she was discovered lifeless.

Mrs. Quinlin had been a resident of this place for about thirty years and leaves several children, among whom are Messrs. Dan Donahue and Ed Cloran and Mrs. Ellen Farnell and Mrs. Wm. Sheen, all of this city. All the children attended the funeral.

Services were held at the Church of Immaculate Conception, of which she had been a member for years, at 9 o'clock Saturday morning by Rev. O'Connor. Interment took place at Mt. Calvary cemetery.

Record Breaking Warm Weather.

The record for warm weather in January in the central portion of the United States was broken Saturday and Sunday. At the sub-station of the Weather Bureau here the thermometer registered 67 degrees on Saturday, one of the warmest days Earlinton has experienced since the establishment of the service.

The air was balmy and the weather all day long was like that of spring. With the thermometer registering 31 degrees above normal, fires in residences were not needed and citizens, in some instances, were seen on the streets without coats. The minimum temperature for the day was 62 degrees.

On Sunday, the warmest January day ever recorded here, 74 degrees was the maximum temperature reached, and as a rain had fallen during the night and continued throughout the day the mercury dropped to 40 degrees before the day was over. Fires were lighted on this day only on account of the dampness prevailing. In conversation with several old residents of the county they stated that these two days were the warmest January weather this section has had in thirty years.

The maximum temperature of Jan. 20 last year was 17 above and on the 21st 28 degrees were registered. The 25th day of the month showed a drop in temperature to 4 degrees below zero, the coldest day of the winter.

The highest maximum temperature registered in the State outside of Earlinton, according to reports, was at Louisville, where 73 degrees were reported Sunday.

This warmth reported throughout this and adjoining States of the Ohio valley and Mississippi valley. In Vermont a maximum of 65 degrees was reported Sunday and the butterfies were seen for the first time this year.

A succession of storms from the Northwest passed over the middle West and each succeeding one drew the warm air from the Gulf toward the North and created the high temperature over this section, is the reason given for the unseasonable warmth.

Last Saturday and Sunday will be long remembered as the warmest days ever experienced here during the month of January for over a quarter of a century.

TILLMAN FORGOT RUGGED COURTESY.

Pitchfork Tactics Brought the Most Profound Rebuke.

NOTES FROM NATIONAL CAPITAL.

Washington, Jan. 22.—Special.—Senator Tillman's sensational attack on President Roosevelt has been the principal subject of conversation here this week. There is a general feeling that the South Carolina Senator for once forgot the rugged courtesy which has marked the fiercest of his previous oratorical wieldings of the scourge on the Senate floor. The Tillman of Tuesday's outbreak was more like the "Pitchfork Ben" of old gubernatorial days than at any time in recent years. Astonishment was expressed in some quarters, notably the editorial columns of the Washington Post, that none of Mr. Roosevelt's friends in the Senate came to his defense. There were rumors to the effect that Senator Lodge was to come forward as the President's champion, but it was finally decided the better policy to take no action that would fan the flames of controversy. Consequently the Senate contented itself with tabling Mr. Tillman's resolution for an enquiry into the Minor Morris incident by an overwhelming vote, and with the earnest disapproval of the South Carolina Senator's language expressed by Senators Daniel and Hale during the course of his speech.

The pure food and ship subsidy bills have been engaging the Senate's attention in the absence of more momentous business. Senator Gallinger is trying to steer the subsidy measure through its devious ways of Senatorial debate, while Senator Heyburn of Idaho is the foremost champion of the bill making more stringent the legal provisions against food adulteration. Many petitions favoring the Heyburn bill have been received. It is being strongly supported in the Senate and is believed to have an excellent chance of enactment. The ship subsidy bill is in a different case. Senator Gallinger is making a manful fight for his pet measure, but the hostile current seems too strong to be overcome during the present session.

In the meantime the situation as regards the paramount issue of railroad rate regulation is becoming steadily clearer. The National Board of Trade, composed of the most influential of American commercial organizations, has been holding its annual convention in Washington and has adopted resolutions on the rate question, recommending that the power of passing on the reasonableness of a given rate shall be entrusted to the Federal courts, complaint to be made by the Interstate Commerce Commission, and the Commission to substitute by order of the court a reasonable maximum rate for one found excessive by that body. The rate so fixed is to be subject to revision in the proper court upon proof that it is less than reasonable. These recommendations are practically identical with the provisions of the Elkins rate bill as amended and reintroduced by its author.

Hope that the House Committee on Interstate and Foreign Commerce would be able to report unanimously on a rate bill has vanished. Irreconcilable differences have developed between the opinions of the major-

ity and minority members, and Mr. Dacey of Louisiana on Thursday introduced a bill embodying Democratic ideas on rate regulation. The Dacey bill is not expected to win support from any except the most radical advocates of government rate control. It is criticized as being even more stringent in its provisions than any of the various preceding measures in that it gives the Interstate Commerce Commission power to fix an absolute instead of a maximum rate.

The Rivers and Harbors Congress has departed after fixing its temporary headquarters at Cincinnati, the home of Captain J. S. Ellison, secretary of the executive committee. Resolutions were passed urging Congress to appropriate \$50,000,000 for the improvement of the country's waterways and recommending that work be concentrated on the streams and ports of first importance and that less money be wasted on streams of no value to commerce. Under such a policy the Mississippi valley and its connections with the Lakes will probably come in for the greater share of attention. Emphasis was laid on the importance of waterways in regulating transportation rates.

Representative Prince of Illinois has obtained a favorable recommendation from the House Committee on Military Affairs for his bill appropriating \$200,000 to mark the graves of Confederate soldiers who died in Northern prisons and hospitals. There are 24,000 such graves. A similar bill, introduced by Senator Furaker, recently passed the Senate.

John Wesley Gaines of Tennessee has received what he considers the limit in requests from constituents. A letter came to him from a colored man who has become the proprietor of a farm with a pond on it. The letter said: "Please send me some government bull frogs, so as I can put them in my pond and raise a big sight of dem." Mr. Gaines is renowned for his faithfulness in attending to the wants of Sixth District voters whenever possible, but this time he is very nearly reduced to despair. The government does distribute fish eggs, but it has not as yet embarked in the bull frog industry. The only way of escape for Mr. Gaines seems to lie in securing the passage of a bill establishing a government frog hatchery.

MAYO.

Married at Nortonville.

The marriage of Miss Lucy Merrell and Archie Martin, both of near this place, occurred at Nortonville on Wednesday of last week. The young people went to that place in order to surprise their friends and were united in matrimony by Rev. J. H. Coleman at the parsonage. The many friends of the young couple extend best wishes.

Saw Mill Burned.

Fire destroyed the saw mill owned by L. W. Schmetzer at Rose Creek crossing near Nebo Thursday night. The loss will amount to about \$1,000. The insurance carried on the property is unknown. Flames also ignited the slab pile adjoining the lumber and other buildings near by were saved. The origin of the fire is not known.

The lady witness had become quite picturesque in her testimony, and the attorney had called her down to a way that had made her mad all over. "Confine yourself to facts if you please, madam," he said in conclusion. "Very well," she replied tartly. "You are no gentleman. How does that strike you?"

BUY A TOWN LOT!

South Side Height Addition to the Town of Madisonville.

"THE BEST TOWN ON EARTH."

THIS addition is what is known as the RIGGIN FRUIT FARM located within forty feet of the city limits and will be inside of the city when the city limits are extended, which will likely be done in the near future. This addition contains 100 lots, one-half of which is covered with nice fruit trees in full bearing. This property is beautifully located, up high and dry and overlooking the city and the Royal mines, and is as healthful location as there is to be found.

A NICE two-story house with basement, built by Wm. Riffin, is the capital prize in this Addition. This house would cost at least \$1,500 to build. The second prize is a small cottage of three rooms which is now rented for \$6 per month.

THESE lots are being sold for \$75 per lot. Terms \$12.50 cash, \$25 March 1st, 1906; and the remainder, \$37.50, to be paid in 6 months after the date and upon the receipt of a deed to said lot, without interest.

Position to be Drawn for, and the Drawing to be Controlled by the Purchasers of Lots.

We have sold 63 lots, leaving only 35 to be sold. This is an opportunity of a lifetime, no chance to lose as every lot in this Addition is worth the money, and many of them worth twice the price, and some one will draw a house and lot worth at least \$1,500 for \$75. Send in your application for a lot to

ST. CHARLES ITEMS.

Dr. R. H. Perry, of Dawson, was a business caller here last week.

Brick Southworth, of Earlington, spent Friday with relatives here.

John Blane, of Daniel Boone, was calling on one of our fair sex here Sunday.

Miss Lynna Galloway, who is attending school in Madisonville, and her sister, Mrs. Mary, of Phoenix, spent Saturday and Sunday with their mother, Mrs. W. R. Raymer.

Mr. and Mrs. T. R. Finley, spent Sunday in Earlington, the guests of Dr. and Mrs. W. K. Nisbet.

H. Hilbs, of Madisonville, was circulating among friends here last week.

Mrs. Lillie Braunwell and little daughter, of Providence, were the guests of the former's sister, Mrs. Geo. Kling, last week.

Mrs. Susie Johnson, who has been very ill, is now convalescent.

Mrs. Henry Pauli is very ill at this writing.

Mr. and Mrs. Joe Teague spent last week in Mortons Gap, the guest of relatives.

Misses Nora Pauli and Audrey Cobb were in Nortonville Monday.

Mrs. H. J. Bryan entertained a number of her young friends at the home of her mother, Mrs. Chas. Gribble, on last Thursday evening. Music and dancing were the main features of the evening. Delightful refreshments were served and at a late hour the guests departed, thanking their hosts for the pleasant evening.

Miss Maude Finley, who has been visiting in Mortons Gap and Crofton, returned home last week.

"The Holy City."

Announcement of a performance of "The Holy City" interests theatre goers to an uncommon degree. The great Biblical drama and the sumptuous production given it, the strength of the acting company, the music and grand spectacle with which the play abounds, furnishes dramatic satisfaction and scenic pleasure so complete and gratifying that Managers Gordon & Bennett's enterprise is a leading feature in all columns containing theatrical news. Seldom has a play of this magnitude, immediately noted, because seldom has any one play so many points of value. The theatre goers who appreciate entertainment in the proportion given for following thought, will, in the thrillingly told story of the Apostle John, find reflection, dramatic study and future enjoyment rarely combined. The theatre goer who is more pleased with brilliant spectacle and wonderful stage effects, has his wish gratified by lavish preparation and almost unprepared presentation. In his application for a performance of "The Holy City" Manager McGary sought the most important theatrical offering of this season. Temple Theatre, Monday night, Jan. 29.

VALUABLE INFORMATION

Each man has a chance in a lifetime to reach the point of success, and this opportunity is offered in Missouri, Arkansas, and Louisiana, the three great agricultural and timber States, traversed by the Iron Mountain Route, where land can be purchased at from \$3.50 to \$20.00 per acre, that is producing from \$30 to \$500 per acre each year, in cotton, corn, hay, sugar cane, fruit and vegetables. The returns from alfalfa growing in this district have proven a record breaker—six crops each year or six tons per acre at \$15.00 per ton on local markets is what is claimed. All that is necessary is for the homemaker or investor to look over the situation personally, as the country speaks for itself, and on the first and third Tuesdays of each month Home-seekers' tickets are offered at rate of one fare plus \$2.00 for the round trip. Four daily trains from St. Louis. Free receiving car cars. Write us and we will furnish free descriptive literature and further information regarding our wonderful territory.

NEBO NOTES.

Mr. J. T. Ezell and little son, Charles, were the guests of Mr. A. M. Campbell several days last week.

Parrie Price, of Webster county, has moved to Madisonville, where he will make his future home. We are glad to have Parrie and his family citizens of our county.

Our skating rink still prospers under the management of J. D. Hartman & Co.

The barber shop here has changed hands. H. R. Tilford, the tonsorial artist, has sold out to Wm. Day as he could give his entire time to the duties of manager of the telephone at this place. Miss Beale Tilford will be the "hello" girl.

We are losing one of our best citizens. Rev. J. D. Durham and family are moving to Hamby station to make their future home. We will miss the parson greatly on our streets, but our loss is Hamby's gain.

T. B. Bone, better known as "Parson," a celebrated pig maker of Madisonville, was here last week on a visit.

Dr. Ferguson made a flying trip to Louisville last week.

Judge Sigbee has abandoned the bench and from present indications is farming. He was seen making plant beds this week.

Some of the boys that attend the rink had better be a little more careful or boys you'll hear something down one of these nights.

Lee Schmetzer's saw mill, near here, was destroyed by fire last week. He is moving in another mill and will soon have things running as usual.

The Nebo Mining & Improvement Co., is prospecting with a diamond drill on their latest purchase. They are looking for coal and other minerals.

W. O. Smith visiting friends in the country several days this week.

Jessie Burton, of the Corinth neighborhood, returned Monday from a several days' visit to Earlington.

Dr. Ferguson has a crew of men at work changing what used to be known as the Shuts Hall to an office building.

Mrs. Lella Langley and two little children left Monday to join her husband, Gus Langley, who has been at Jonesboro, Ark., for some time. They go that place to make their future home. Mr. Langley is in the lumber business. We wish them success.

Dick Avert was going up the road the other night to call on his best girl. He was riding homeback when in a marshy place in the road his horse missed his footing and fell. He fell on one of Dick's feet, and the boys say Dick can grunt louder than anybody they ever saw. Dick says he scraped the mud out of his eyes and went on to see his girl anyway, leaving his hat at the gate. Be more careful next time, Dick.

Will Sights took his many friends here by surprise by bring home last Monday his new bride. He was married Sunday at the residence of Rev. Henry Wagon, of Earlington. Will formerly lived here with his father, Judge Scott, but for sometime has been a brakeman out of Earlington. He married Miss Phoebe Potts, of Dawson. Mrs. Sights is well known here. She used to be a pupil here in Prof. W. B. Davis' school. The bride is a handsome and accomplished young lady. The groom is an industrious young man and has many friends here who wish him success in life.

How Many Birthdays?

You must have had sixty at least! What? Only forty? Then it must be your gray hair. Ayer's Hair Vigor stops these frequent birthdays. It gives all the early, deep, rich color to gray hair, and checks falling hair. And it keeps the scalp clean and healthy.

I am a good resolution.
Only a few weeks old.
Once I was fair
As a whitewashed stair,
And you would swear,
Hind you been there,
That I was built to hold.
Only a good resolution,
Born with the bright new year—
Say, but it's me,
To the willow tree,
For all can see
That I'm full of gin,
And loose is my running gear.

Only—I might say lonely.
Better to fit the case,
Wrinkled and bent
To such an extent
That a half a cent
Would be poorly spent
In buying me just at my face.

Swift Electric Messages.

A traveler sent out from the American government to see which country had the best telegraph service began leave to report that England has the world skinned both ways from the ticker.

We will never kick on that. While we love to sit where the echo is perfect and hear ourselves brag on all things American, yet we feel like humbling ourselves or throwing things at the relatives of the stockholders when we recall some of the deliberate and painful details of our telegraph service. Even in so exasperating a thing as this it is well to speak only the truth so the story that may start out on foot and beat the ordinary telegram to its destination is an exaggeration, but the prudent man does sit down and write a letter after he has sent a message warning the folks that it is coming.

The Course of the Mining Industries During 1905.

Dr. David T. Day, of the United States Geological Survey, who brings out each year a volume entitled "Mineral Resources of the United States," is authority for the statement that the general prosperity of the year 1905, due to good crops, excellent foreign trade, and business confidence, was emphatically expressed in the greatest production of minerals ever known in the history of our country. Good crops stimulated the railroads to increase their rolling stock. The direct consequence of that was a heavy demand on the iron and steel trades, which in turn extended the expansion movement to coal and coke.

The preliminary estimate made by the Director of the Mint of the production of gold and silver in the United States during the calendar year 1905 shows a gain of approximately \$6,000,000 in gold and 1,000,000 ounces of silver over the output of 1904. The gain in gold is represented almost entirely by the increased output of Alaska, which is placed at \$15,500,000 as against \$9,100,000 in 1904. The Alaskan gain is nearly all in the Tanana or Fairbanks district, the returns for which are \$5,100,000. California shows a loss in gold production of about \$1,500,000, due to prolonged drought, which not only brought hydraulic operations to a standstill but interfered, to some extent with quartz mining. Nevada shows a gain of about \$400,000, and Utah an equal increase. Colorado's gains amounted to about \$1,000,000.

The ill wind of war and revolution which brought disaster to the Russian petroleum industry carried prosperity to the productive oil areas of the United States. To supply the increased demand from abroad, which resulted from Russia's deficit, strained the petroleum resources of this country to their utmost.

The demand for copper during 1905 was intense and prices were high. This demand for copper affected other metals sympathetically, especially aluminum, which floats on the copper market as a substitute for copper conductors and is more or less sought, according to the price of copper.

General prosperity was sufficiently pronounced to make itself felt in the building trades, as is shown by the increased production of structural steel, brick, terra cotta, and

stone. Of all the structural materials, cement profited most by the forward movement, which came, fortunately, at a time when a favorable market was necessary to take care of existing stocks.

Prosperous conditions were reflected even in the sale of precious stones, although a large majority of the business consisted of sales of diamonds from abroad, which brought unusually high prices.

The Truth.

Our progressive druggist, Bryan Hopper, in speaking of the so-called cures for the many diseases of humanity, has occasion to speak of "Zemo," a positive cure for Eczema and all skin diseases. The manufacturer of "Zemo," Mr. E. W. Rose, of Harrisburg, Pa., gave six hard years' study toward the perfecting of "Zemo." Many persons in Saline county, of which Harrisburg is the county seat, were invited to use Mr. Rose's remedy and in a number of cases of from 12 to 15 years standing a complete cure was the result. Mr. Hopper says that after being shown positive proof that "Zemo" will and does cure the most severe and long standing cases that he was glad to offer to his patrons the only remedy that he believes will absolutely give a permanent cure. In a few days "Zemo" will be received and he will display in his windows some photographs of some of the cures made. Mr. Rose has written a strong booklet on the treatment of Eczema and skin diseases and he will take pleasure in giving a copy to those who call. It is his desire to have every sufferer from chronic, long standing cases of Eczema and skin diseases call and see him, when on the authority of Mr. Rose, he will give them a legal guarantee that "Zemo" will cure any case of skin or scalp disease, no matter from what cause or for how long standing. "Zemo" is a nice clean liquid for external use and during treatment there is no cause for loss of time from business. Mr. Rose is so much in earnest and is so honest in his statements he says he does not want a dollar of the people's money when a cure is effected.

The German government has offered three prizes for the best field kitchens available for army use, and it is stipulated that every such outfit must be of a size making it possible to carry it on a horse, with space left for the driver's luggage and forage for the horse.

BABY'S FACE MASS OF SORES

Ears Looked as if They Would Drop Off—Body Entirely Covered with Humors—Three Doctors Could Not Cure—Child Grew Worse.

CURED BY CUTICURA IN TWO WEEKS

Mrs. George J. Steese, of 707 Cohorn St., Akron, Ohio, tells in the following letter of another of those remarkable cures of torturing, disgusting skin humors daily made by Cuticura Soap, assisted by Cuticura Ointment, after physicians, and all else had failed. "I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but they declined to grow worse. Her body was a mass of sores, and her little face was eaten away, her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and when I had used half of the cake of soap and box of ointment, the sores had all healed, and my little one's face and body was as clear as a newborn babe's. I would not be without it again if it cost five dollars. Instead of seventy-five cents, it is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever."

SLEEP FOR BABIES

Rest for Mothers.

Instant relief and refreshing sleep for skin-tormented babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap, the gentle anodyne, with Cuticura Ointment, the great skin cure, and purest of emollients.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Page Three of Every Issue of the World's Largest Family Doctor.

"I cannot understand, sir, why you permit your daughter to use me for a breach of promise. You remember that you were bitterly opposed to our engagement because I wasn't good enough for her and would disgrace the family."

WINTER TORNADO AT SHREVEPORT

A HEAVY SNOW STORM RAGED IN TEXAS, AND CATTLE ARE PERISHING.

The Spring-like Weather in the West followed by an Eminent Storm of Rain, Snow and Cold, That caused suffering and inconvenience.

Dallas, Tex., Jan. 22.—A cyclone swept over northwestern Louisiana, near Shreveport, La., late Sunday. One white woman, whose name has not been learned, was killed and much property destroyed.

The path of the cyclone, 200 yards wide, was through the northern part of Caddo parish, two miles north of Houston. Many dwelling-houses and barns were destroyed.

A man who reached Shreveport from Mena, near Houston, reported great havoc in the wake of the cyclone and stated that many houses were scattered over the country.

Houston, Tex., Jan. 23.—A heavy snowstorm is raging over north Texas. Snow drifts in the Indian territory are several feet deep. The drop of 50 to 60 degrees in temperature in Texas was accompanied by a terrible windstorm.

Paris, Tex., Jan. 23.—A foot of snow lies over north Texas, with more falling. The drifts are three feet deep in all places and street cars remained in the barns.

Chicago, Jan. 23.—Chicago was cut off from the news of the world by a great storm, which has prostrated wires in every direction. Business was greatly hampered by the falling of street car lines all over the city. Hundreds of thousands of people were seriously affected by the tie-up of the traction service.

A single wire to Milwaukee was the only one working out of Chicago.

Cloudburst at Huntsville, Ala. Huntsville, Ala., Jan. 23.—A cloudburst occurred here Monday morning. Parts of the city were inundated and people were compelled to leave their homes. The railroad depots were flooded and electric railroad traffic is entirely suspended. Wind and rain crippled the telegraph service.

Kansas City, Mo., Jan. 23.—According to reports received here from all parts of Missouri, Kansas, Iowa and Indian territory, severe weather, consisting of an unobstructed precipitation of rain, sleet and snow, coupled with a fall in temperature of 60 degrees, has covered the country with a mass of ice-capping business and transportation.

Water Above Out Spring. St. Louis, Mo., Jan. 23.—The spring weather of Saturday and Sunday forenoon, when the thermometer reached 72, was followed by rain, sleet and snow, and a drop of 60 degrees. Sunday night was the worst of the season in the territory for a hundred miles in any direction from St. Louis. Monday morning found the city practically isolated from the world. Telegraph and telephone lines were down, and it was none before the semblance of order was secured from the chaos of tangled and grounded wires. Heavy rains and sleet prevailed in Arkansas, Indian territory, northern Texas, Louisiana, Georgia, Alabama and Tennessee. North of St. Louis, and especially to the northwest, blizzard weather prevailed.

The cold in the northwest is intense. Monday, at Omaha, it was zero; St. Paul, 9 below; Morehead, Minn., 28 below; Huron, S. D., 22 below, and 22 below at Havre, Mont.

Spring-Like in New York. New York, Jan. 23.—The weather was unseasonably warm Sunday from east to west. The thermometer marked 80; in this city people met in parks to keep cool, under the Great Lakes it was 68.

TEXANS KILL BANK ROBBER Three Robbers Found in a Bank and a Butte Follows With Citizens.

Dallas, Tex., Jan. 22.—Three robbers entered the State bank building at Montague, Tex., about 2 a. m. The men were discovered working on the safe of the bank shortly after that hour by City Treasurer W. G. Bawley.

An alarm was given and a pitched battle took place between the robbers on the inside of the bank and a party of citizens on the outside.

Two of the robbers rushed from the building and escaped. The third member of the band was left dead on the floor of the bank in front of the money vault.

The dead robber could not be identified by anyone at Montague.

BLOW POST OFFICE SAFE Robbers Use Nitroglycerine to Secure Money at New Madrid, Missouri.

New Madrid, Mo., Jan. 21.—The post office in this city was entered by burglars at 1 a. m. Saturday. The safe was blown to pieces with nitroglycerine and \$74 in cash, \$74 in stamps and two registered packages were either taken by the robbers or destroyed by the force of the explosion which tore to bits all of the books and papers in the vault. Entrance was gained through the rear window of the post office, which adjoins the New Madrid bank. No effort was made to enter the bank. The explosion was muffled and no damage was done except to the safe and its contents.

Does your baking powder contain alum? Look upon the label. Use only a powder whose label shows it to be made with cream of tartar.

NOTE.—Safety lies in buying only the Royal Baking Powder, which is the best cream of tartar baking powder that can be had.

MINING NOTES.

The Mining of Coal in 1904. In coal-mining, says Mr. E. W. Parker, author of the annual report on the production of coal which is published by the United States Geological Survey, the year 1903 has been one of record-breaking activity.

While the production of bituminous coal has, in most States, exceeded the production of previous years, the operations of the mines have been seriously hampered by a shortage of cars. This condition has affected practically every bituminous coal-mining district in the United States.

Alabama. The strike of the United Mine Workers of America, which began in July, 1904, and was directed against all but one of the coal and iron producing companies of the State, has been continued throughout the year or perhaps it might be more correct to say that this strike has never been officially declared off. The mines against which this strike has been directed have been operated with non-union men, or by the "Hooper" system, for more than a year. Some of the men said to have mined more coal on the Hooper plan than they could as union operated mines, but nevertheless the production of others has been materially restricted. Production at Alabama mines that were not affected by the strike has been greatly stimulated by the shipment of the commercial coal which had been previously produced from the mines off strike. The iron-ore mining companies have been compelled to turn practically their entire output to the coke, many of them crushing the run-of-mine coal and charging it into the ovens, although heretofore they have been accustomed to coke only the screenings and to ship the screened or lump coal to railroads and other large consumers.

Notwithstanding the interruption to business caused by the strike and the fact that the operators of Alabama and Tennessee have been somewhat inconvenienced by lack of cars and locomotives, the production of coal throughout the State of Alabama will show a pronounced increase over that of the preceding year. Owing to the strike a large portion of Alabama's export coal trade has been cut off, as less coal

has been shipped from this State to distant points than for several years past. On the other hand, the railroads, the manufacturing trades, and the domestic coal consumers have used much more coal than before. Taking the entire State, it is estimated that the mines have been running to within 25 per cent of their capacity.

Prices have reached a considerably higher level than in former years. This is particularly true for the higher grades of steam and domestic coal.

Tennessee and Kentucky. The conditions in Alabama have naturally stimulated to an appreciable degree the production in the adjoining State of Tennessee and also that of eastern Kentucky. Coal from these States has been sent to markets heretofore supplied by the Alabama product.

J. T. Ezell, of the No. 9 shop, was in Nebo last week visiting friends and relatives.

Pat Manning, formerly employed at the Barneys mine, now living at Carversville, Ill., was in the city several days last week and this, visiting friends and relatives.

Henry Magenheimer, of Graham, visited his parents here this week.

Rufe Gatlin, of Barneys, was here visiting friends Sunday.

Pat Blair, stable boss at Diamond mine, was here Friday on business.

The Green River Coal & Mining company, which owns the coal mines at Spottsville, is now preparing to enlarge the plant and \$300,000.00 will be expended on new improvements and the capacity will be doubled, says the Henderson Glenner. Modern machinery will be installed and all the buildings will be replaced with new and up-to-date structures. The old steam propelled apparatus will be supplanted with electric machinery. The new tipples will be operated by electricity, and the hoisting cables will run by the same power. The new company will build a large number of barges and greatly increase the commercial trade of the mines. The mining rights under a large

scope of territory has also been purchased by the company.

Mr. Moorehead, engineer at dynamo plant, had two fingers of his left hand mashed very badly last Sunday while making repairs.

Mr. Dulaney, of the tippie force at No. 9 mine, had the misfortune to have three fingers mashed a few days ago.

Mr. Sterling, Ky., Jan. 22.—R. M. Bross, of Ashland, has closed a deal in New York with the Northern Coke and Coal Company, whereby the latter secures several thousand acres of valuable coal lands in Martin county, on the Sandy river. The deal involves about a half million dollars, and will open the development of a rich section of country.

L. Blanks, superintendent of the Robards coal mine, near Henderson, met with a painful accident Friday morning by falling the distance of ten feet from an ascending cage in the mine. He got into the cage at the bottom of the mine, and as he started upward he was accident-

ally thrown back, falling to the bottom and sustaining painful bruises and scratches. Mr. Blanks was formerly employed at the Diamond mine, Mortons Gap, and has many friends here, who are glad that he escaped serious injury.

EVANSVILLE, INDIANA

Main & Second Streets

Finley's Real Estate

To the citizens of Hopkins and adjoining counties: Should you wish to purchase property of any kind, perhaps it would be of some benefit to you to call on me, as I have quite a number of houses and lots as well as some farming lands for sale. Below are some of the places of property that I have listed with me for sale:

First, A nice house and lot on east Broadway street, Madisonville, being one of the nicest homes in that city on this desirable street and residence portion of the city, house new and in first class state of repairs and cheap at \$5,500. Terms easy. Please don't make up your mind without seeing this property.

Second, A nice cottage home on Daves street, near east Broadway, house new, nice outbuildings, good cistern, everything well improved. This property is a bargain at \$1,500. Parties wish to sell this property for cash and are willing to take cash prices in order to make quick sale.

Third, I also have a nice new cottage on Seminary street in the city of Madisonville at a bargain. Can be bought for \$1,450. This property is well located and has a future that will in the next two years make it worth \$2,000. Parties purchasing will get the benefit of the rise.

Fourth, I have two small houses listed with me for sale that can be bought at \$1,000 each. These houses are renting for \$125 per year, which is over 12 per cent on an investment. This is a fine opportunity for a person who has some little money and wishes to make a fine investment that will bring big returns on a small amount invested.

Fifth, A nice new house on Daves street in the city of Madisonville, Ky., with a vacant lot, good outbuildings, good well of water, new fences, everything in first class state of repairs. This house is less than one year old and has five rooms, hall and back porch, and can be bought for \$1,800 on easy terms.

I also have quite a number of houses and lots that I own individually and some four or five hundred acres of good farming lands that I will sell on easy terms, and some 10 or 20 vacant lots that I will dispose of at prices very satisfactory to people wishing to make a good investment. Perhaps it will be of interest to those wanting to buy or trade to call on me about these, and let me urge you, should you think of trading some, to watch my ads in the papers. Respectfully yours,

THOS. E. FINLEY, Madisonville, Kentucky.

LOCOMOTIVE BLASTS

It is said that the L. & N. Railroad Company will probably triple track that part of its line between Corbin and Livingston, on account of increase in traffic. A second track is now being laid and it is thought that these two tracks will be inadequate.

Engineer Pete Herb has been transferred from road service to the construction train at Cedar Hill, Tenn.

A crew of men began work last week on the depot of the Kentucky Valley Railroad at Providence. The structure will be 130 feet long and 40 feet in width and two stories high.

Chairman McCord and Commissioner Mc D. Ferguson, of the Railroad Commission, after hearing the evidence submitted at Clay, Webster county, last week, in regard to the Morganfield & Atlanta railroad should cross the tracks of Illinois Central R. R. at the grade or establish an overhead crossing at that place, decided in favor of a grade crossing.

The boys on the Henderson division are kept busy these days owing to the heavy traffic. On Friday night 40 trains outbound and 38 northbound registered at the station here, making a total of 78 trains in 24 hours' time and established a new record on the division. Business is still good and the rush will last sometime yet.

Engineer Pete Herb spent Sunday with his family here.

Timekeeper David Cowell went to Nortonville Sunday on business.

Engineer Alphonse Coenen has been on the interurban train several days during the absence of Engineer Whalen.

The Kentucky Valley Railroad, running between Providence and Wheatcroft, has just been completed and will be open to traffic in a short time. The road makes connection with the Louisville & Nashville railroad at Providence and with the Illinois Central at Wheatcroft. The road was built for the purpose of opening the coal lands between those places. It was financed by Irving H. Wheatcroft, who is the president.

Clarence Ray, a negro brakeman, was killed at Dawson Friday by falling under the wheels of an Illinois Central work train. Both arms and both legs were severed from the body. He lived in Henderson.

Cleveland Ligon, of Sebree, who has been in school at Lexington for several months, has returned home and accepted a position in the L. & N. depot at that place.

The engine of the southbound local freight was derailed at Morton's Gap Monday night, causing several hours delay to trains. Little damage was done to equipment. Conductor Ernest Eastwood was in charge when the accident happened.

Copiest E. B. Padgett, of Hopkinsville, has accepted a position as dispatcher with the Big Four at Mt. Carmel, Ill.

Conductor Frank Rousey is running Conductor Sam Morgan's car on the south end this week while he is off duty.

the roadbed and when the engine backed on the track the rails spread derailing the tender and careening the engine. The wreck was cleared up in thirty minutes.

A Thousand Dollars Worth of Good.
A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel and stones in excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and feel like a new man. It has done me \$1000 worth of good."

OPEN PUBLICITY THE BEST

GUARANTEE OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly valuing his product as well as on its bottle wrapper, a full list of all its ingredients, its principles, its action on his part, is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation.

Dr. J. C. Fawcett's Prescription for the cure of the weaknesses, periodical pains and functional derangements of the female system, will show that it is made wholly from native American medicinal roots and herbs, and is not a poisonous or habit-forming drug, as narcotics, but a simple, safe, and effective remedy, of proper strength being used instead of the commonly employed alcohol, which is so harmful to women's system. Now, glycerine is perfectly pure, and for medicinal purposes, by possessing intrinsic value all its own, and it is not at all necessary to have the effect of the other ingredients entering into the "Fawcett's Prescription." Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Fawcett's Prescription" is composed—regarding it as a valuable remedy for many of the diseases for which this world-famous medicine is sold. No one who is a medical student or a physician, or a person of ordinary intellect, will be interested, send name and address to Dr. J. C. Fawcett, 1000 Broadway, New York, and he will send you a free book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients of which "Fawcett's Prescription" is made.

BISHOP & CO.'S

TWO-WEEKS "QUICK WORK" SALE.

*The Most Remarkable of January Sales
Ever Conducted by this Store or in this Community.*

Reduction sales of one sort or another are usual at this season of the year. It is to be expected that merchants will use every legitimate means to reduce their stocks, to turn their merchandise into money, and to avoid the penalties and losses of carrying goods over from one season to another.

Cut prices, special sales, and discounts from regular values, abound on all sides; but lest you conclude that this is the ordinary January Clearance—a mere means of unloading suits and overcoats, getting our money back, or making ourselves whole on the investment, we wish to set out clearly the distinguishing features of this Two Weeks Campaign.

We Have Made the Prices so Low, Reductions so Sharp and Decisive

as to leave no question in the mind of anyone who calls here that this is an occasion unlike anything he has seen or known heretofore. There can be no doubt that we mean business, that we are determined to clear this store of Winter Wearables regardless of first cost of the goods or their actual worth in the market at this time.

First of all we believe strong inducements are necessary to stir people into activity and make this sale a sensational success. We believe that those who have thus far gone without something they would like to have are entitled to a bargain. Where conditions of economy or uses for the money in other directions have prevented a man's buying a needed article, we believe we shall have to remove the original difficulty—that of price—if we are to serve him now.

Again, we shall not be content with selling only those who have postponed their buying—there are not enough of them. We have got to make the figures so low, make the values so imperative, that those who have already supplied themselves early in the season will be forced to add to their purchases and lay in an extra outfit. Forced, we say, because they can't afford to let the chance slip—compelled by the sheer strength of the values and the knowledge that they can't hope to have such an opportunity again.

Sale Begins Saturday Morning, January 27, 1906,
and will Continue until our Closing Hour Saturday Evening, February 10th, 1906.

PLEASE READ VERY CAREFULLY PRICES NAMED BELOW:
